Risks and Benefits of Therapy

Psychotherapy may involve the risk of remembering unpleasant events and can arouse intense emotions of fear, anger, anxiety, depression, frustration, loneliness or helplessness. The benefits from therapy may be the ability to better able to handle or cope with family or other social relationships, thus experiencing more satisfaction from those relationships. Another possible benefit is a better understanding of personal goals and values, which may lead to greater personal maturity and growth. Your therapist is not a physician and cannot prescribe medication or perform any medical procedures. If medical treatment is indicated, you can choose the physician of your choice or receive potential referrals. I cannot guarantee the goals of therapy will be attained; however, I will in good faith attempt to apply all the knowledge and resources I have to help you attain your therapy goals. You should know there are possible risks of greater emotional discomfort/distress being the end result of counseling. There is no guarantee, expressed or implied, and no refund of any money paid, due to non-results and/or undesired results due to the counseling you have received.

Therapist Availability

Emergency situations do arise when you may need to speak with your therapist by telephone in between appointments. The size of my practice limits my ability to respond to such emergencies in a timely manner. You are entering into our counseling relationship with this understanding, and are accepting the level of service I can provide with the implied limitations. Specifically, when I am unavailable for whatever reason, it will be your decision to wait for a return call which may take several days (or longer on occasion), or assume the responsibility to find an alternative source of assistance (in life threatening situations, a call to 911 is often your best option). If you are unable to contact me and the situation requires immediate attention, please be aware that you can seek emergency treatment at a local emergency room. Be advised, however, that you will be responsible for any and all expenses you may incur by using their services.

Appointment Cancellations

Counseling sessions are scheduled and billed in 50 minute increments regardless if they are less than 50 minutes in length. There may be consideration given to a need to schedule sessions that run longer upon request. This would generate an additional fee. Please be advised that there will be a fee charged for any phone call returned to discuss anything other than the changing of appointment times. Telephone consultations and requested written reports are billed in 15 minute increments, at a rate of $25.00 for every 15 minutes. your next appointment. I do not bill insurance companies. If you would like a bill to provide your insurance company or health care flexible spending fund, please make me therapist aware of this need and a bill can be sent to you at the end of each month.
